Registration

Yes, I will participate in the

ADVANCED Training Course

for Full-endoscopic Operations of the Spine

	September 28th – 29th 2017	EUR 750,-*
--	----------------------------	------------

* plus VAT

Name, First name:
Title:
Hospital:
Street:
Postcode / Town:
Country:
Phone:
Fax:
E-mail:
Yes, I would like to receive information about product innovations, promotions and workshops by newsletter from Richard Wolf.

Please register 4 weeks before the training course is scheduled. Because of the limited number of participants only those can be registered, who receive a confirmation from the organization office. You will receive detailed payment information together with the confirmation from our organization office.

Catholic Hospitals Rhein-Ruhr, St. Anna Hospital Herne/Marien Hospital Herne University Hospital/Marien Hospital Witten, Germany

Prof. Dr. med. Timm J. Filler

Director of the Institute for Anatomy I Section for Clinical Anatomy, Heinrich-Heine-University Düsseldorf, Germany

September 28th – 29th 2017

Heinrich-Heine-University Düsseldorf

Germany – Herne / Düsseldorf

Invitation Program General notes

Dear Colleagues,

The therapy of degenerative diseases of the spine carries with it medical and socio-economic problems. After conservative measures are exhausted and where there are exacerbated pain conditions or neurological deficites, a surgical procedure may become necessary. Despite good therapy results, consecutive damage may ensue due to traumatisation. It is therefore of particular importance to optimise these procedures on a continuous basis. The goal we should strive for is the minimization of surgically induced traumatisation and negative long-term consequences, taking into account the existing quality standard.

Minimally invasive techniques can reduce tissue damage and its consequences. Endoscopic operations demonstrate advantages which have raised these procedures to the standard in various medical areas. On the lumbar spine, as a result of the development of the interlaminar and lateral transforaminal access, the spinal canal with its adjoining structures can be reached full-endoscopically. Technical problems have been solved by special rodlens endoscopes with a large intra-endoscopic working channel and appropriate instruments. Working under a continuous stream of liquid offers options which have proved their worth in arthroscopic surgery through long experience. In the area of the cervical spine anterior or posterior access is possible.

During the training course we intend, in a reciprocal exchange with yourselves, to try to demonstrate the current and future options as well as problems, risks and complications of full-endoscopic operations in the area of the spine. In an environment of practical demonstration where you perform access routines on cadavers yourself, typical practical experience for your expected learning curve or future clinical application can be gathered. Under intensive tuition by instructors, each participant will perform the various access routines on a practical level and run through special working procedures. For this reason the number of participants is limited. Nevertheless, the training course cannot replace the acquisition of the necessary extensive knowledge.

Dr. med. Martin Komp

Dr/med. Semih Oezdemir Priv.-Doz. Dr. med. habil Sebastian Ruetten

1st day Thursday at St. Anna Hospital, Herne

07:45 h Registration

08:00 h Clinical Consultation

Full-endoscopic operations of the lumbar spine

M. Komp, S. Oezdemir, S. Ruetten

15:00 h End of 1st day

2nd **day** Friday at Section for Clinical Anatomy, Heinrich-Heine-University Düsseldorf

09:00 h Welcome and introduction

M. Komp, S. Oezdemir, S. Ruetten

ADVANCED Cadaver Workshop – Part I:

09:15 h Full-endoscopic operations of the lumbar, thoracic and cervical spine in disk herniations and spinal canal stenosis

M. Komp, S. Oezdemir, S. Ruetten

10:00 h Practical exercises for participants

Full-endoscopic lumbar operations:

Extraforaminal / interlaminar access, bone resection

On demand: Cervical approaches

Moderation / Instructors: M. Komp, S. Oezdemir,

S. Ruetten

12:45 h Lunch

ADVANCED Cadaver Workshop – Part II:

13:45 h Practical exercises for participants

Full-endoscopic operations of spinal canal stenosis Moderation / Instructors: M. Komp, S. Oezdemir,

S. Ruetten

16:45 h **Closing**

M. Komp, S. Oezdemir, S. Ruetten

Course Location:

1st day (Thursday):

Center for Spine Surgery and Pain Therapy, Center for Orthopaedics and Traumatology of the St. Elisabeth Group -Catholic Hospitals Rhein-Ruhr, St. Anna Hospital Herne Hospitalstraße 19, 44649 Herne, Germany

Finden Sie uns auf Google Maps

2nd day (Friday):

Section for Clinical Anatomy, Heinrich-Heine-University Düsseldorf Universitätsstraße 1 Building 22.05 40225 Düsseldorf, Germany

Finden Sie uns auf Google Maps

Number of participants:

9 participants

Course Language:

English

Course Fee:

EUR 750,- (plus VAT)

CME Certification:

Applied for CME credit points.
